EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Regarding claims **1 and 5**, no prior art could be located that teaches or fairly suggests subjecting an output of a white balance circuit to a gradation correction in a gamma circuit, outputting integrated values from field image from the white balance circuit in an integrated circuit, and detecting signal levels of the field image signals based on the integrated values in combination with the rest of the limitations of the claim.

Regarding claims **2-4 and 6**, these claims depend on claims 1 and 5 respectively and therefore are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
